What is this foundation?

In 2011, Brandon and his girlfriend Samantha were killed in a car accident along with two other children who were walking in the road. Four kids and four families lives will never be the same.

To keep our sanity during this horrific time, we decided to follow in Brandon's footsteps and give back in the best way we could. The Brandon Sorrell Memorial Scholarship Foundation

was created to help others continue their education and goals in the technology fields. The foundation has also taken on Pedestrian Safety to try to keep others from ever going through this pain.

Brandon had just been accepted to SUNY Canton.

Volume 1, Issue 2

Inside this issue:

About	1
2012-2013 Highlights	1
Pedestrian Safety	2

2012- 2013 Highlights and Accomplishments

In 2013 Brandon's family and friends held several fund raising events, including a Texas Roadhouse Dinner, NYS Lotto sales and the Annual Benefit Dinner. Non perishables were collected at the benefit dinner, three twenty gallon totes full of non perishables were delivered to the Peru food shelf.

Many thanks go to the people involved in helping keep Brandon's memory alive through these events.

One new item that we introduced in the 2013 year were Reflective Belts and Reflective shoe laces. These Belts were given to most of the events as funds allowed. A generous donator actually purchased enough for the entire Ausable Valley Cross Country team.

In 2013 there were several events that were conducted to enhance peoples knowledge of pedestrian safety and 4 scholarships were given to local students to help reach their career goals.

A new thing has started

Scholarship Awards

- L. Wright (Peru Student) attending Clinton Community College reaching for a degree in Nursing.
- A. Sterling (NCCS Student) attending SUNY Canton reaching for a degree in Mechanical Engineering.
- K. Ryan (Beekmantown Student) attending St. John Fisher College reaching for a degree in Physical therapy.
- S. Farrell (Peru Student) attending Medaille College reaching for a degree in Veterinary medicine.

These individuals have shown great community support

showing the communities love for these two. Most recently the 12 Days of Caring showing peoples kindness to others from Sam's Birthday until Brandon's Birthday

2013 Pedestrian Safety

This year we were able we were able to reach out to the community in several ways: We were able to reach over 100 Students at Saranac Central who are part of the Track and Field team. We also were able to reach out to Ausable Valley, Peru and Beekmantown cross country track teams.

We opened up our presentations to also include driver awareness of Pedestrians and to elaborate on the fact that we are all Pedestrians. Through efforts at Champlain Valley Educational Services.

This has enabled us to get

the Pedestrian Safety literature and T-shirts out to 187 young adults and adults. Safety Yellow T-Shirts, brochures and tip cards have been created and printed, which will be utilized throughout the years to get our messages for Pedestrian Safety out there.

If you would like to sponsor a school or group, or have any thoughts on how we may further spread our message, please contact us at Christol@brandonsorrell.com for details. If you are aware of an area that we can help to spread the information please contact us.

Thank you to all of our sponsors
